

Memo: Conditional Implanted Cardiac Device Policy

The Implanted Cardiac Device Policy is in the process of being harmonized across the enterprise. When finalized, notification and education will be sent, the policy will be implemented, and placed in Ellucid.

In the interim, effective immediately, please note the following:

- A Risk vs. Benefit Assessment (RBA) **is required** prior to scanning MRI patients with **all implanted cardiac devices**.
- Written informed consent **is not required** for scanning patients with implanted MRI **conditional** cardiac devices, if the prescribed conditions will be met.
- Written informed consent **is required** prior to scanning patients with implanted MRI **legacy or non-conditional devices**.
